

Northeast Georgia SORBA

TRAIL WORKDAYS

Frady Branch Trail System

(Near Toccoa, Georgia)

Equestrian volunteers and the Northeast Georgia Chapter of Southern Off Road Bicycle Assoc. (SORBA) meet regularly with the US Forest Service to work on the trails. *You do not have to be a horse club member or SORBA member to participate.* Please mark the dates below and make plans to attend. For more details and to RSVP contact Joan or Keith. The RSVP is important so we have a head count for a lunch, to let you know what to bring, and to notify volunteers of any cancellations/reschedules.

2018 Scheduled Work Days

March 17
May 5
September 22
November 17

8:45 a.m. arrive at trail head and sign-in (map on page 2)
9:00 a.m. safety briefing, tool disbursements and assignments
1:00 p.m. finish up and have lunch

Volunteer help is the only way these trails are created and maintained.

Everyone is welcome - young or old, hiker, mountain biker or equestrian. Work at your own pace - every little bit helps. We need your help and would appreciate your coming – bring a friend! We'll provide lunch to those who RSVP, water and tools. We usually stop work by 1:00 then eat lunch.

Without sufficient volunteer support, the Forest Service will not be able to consider adding additional horse and mountain bike trails in the Chattooga River Ranger District. Please make plans to attend as many workdays as you can to show that you support the trails here. You'll have fun, make new friends and have a sense of accomplishment that you've done your part to keep these trails open.

Let's get the Frady Branch trails into great shape so they will be a pleasure to ride!

NOTE: Lots of improvements at Frady Branch are coming up. Two reroutes are in the works which should add to the enjoyment, and these are just a start. These two reroutes are being funded by RTP funds and our commitment is to match a portion of the grant with our volunteer hours. Here's a great chance to start building up those hours. It should be a good time with lots of fellowship, some productive trail work, and maybe a ride afterward.
